

Fisher Lake Trip

August 21, 2011

Photos by Don Stadler

Willie led the trip to Fisher Lake. Most of us met at Bonner at 0800. The folks in the open-top Jeeps bundled up against the cold and we headed to Phillipsburg to meet folks coming up from the Bitterroot. From Phillipsburg we drove up through the ghost town of Granite and followed the trail toward Fisher Lake. It's probably a moderately difficult trail requiring high clearance with short stretches of rocks to climb through. The following photos are mostly taken at the most difficult section. Bruce, who hit a deer the day before, couldn't quite stomach the potential breakage and left his Jeep at the top. Everyone else got through without a scratch.

Willie -

Larry -

Erik -

Jay -

It's the attention to detail and little comforts that make Willie's flat fender unique....
