

NAME: Steve Knutsen

FAMILY: my girlfriend is Brittany Corry. My parents and brother live elsewhere so no one would know them.

EMPLOYMENT: I work at Rick's Auto Body, with Curtis Evelo

A BIT OF LIFE HISTORY: I'm from Lewistown in the dead center of Montana. Live there my whole life, work in steel works and a tire shop as well as a grocery store.

4X4 VEHICLES: Where to start: I got my first when I was 14, it was my Dad's '79 GMC long box pickup 3/4 ton. I tore it down and painted it, put a four inch lift on and 35s. It has a power cam, a Muncie four speed and the one ton rear end with 3.73 gears and a Detroit locker. Then I have my running '71ish CJ-5 Jeep with a three inch lift, 32s, rebuilt Buick V6 and a rebuilt trans. Then I acquired another '70s CJ-5 that was on fire, and the plan is to build an over the top crawler with it. Then when I moved to Missoula not even a year ago I purchased a '78 Chevy 1/2 ton step side with a new crate motor, new trans, four inch lift and 35s.

MODIFICATIONS DONE TO YOUR PRESENT RIDE: Curt and I built new shock mounts and relocated the shocks to a better location. I put a new three core radiator and trans cooler on. I haven't done much...yet

FAVORITE VEHICLE OF ALL TIME: I love the '70s model Chevy pickups, and in cars the '69 Z28 yanko Camaro.

IF MONEY WAS NOT AN OBJECT, WHAT WOULD YOU DRIVE OFF ROAD? Probably a well built Jeep and/or '70s Chevy.

SAME QUESTION BUT ON ROAD: An early 2000s Dodge Cummins turbo diesel, tuned, built and lifted and custom painted. A real running machine.

FAVORITE TRAIL OR TRAILS: Don't have any yet.

TRAIL OR AREA THAT YOU WOULD LIKE TO RUN SOME TIME REALISTICALLY? No clue

SAME QUESTION BUT UN-REALISTIC? Still can't think of one.

FAVORITE TYPE OF FOUR WHEELING? Nice trails in the mountains where I don't have to break everything or endanger me or others just to get there.

WHAT OTHER THINGS DO YOU LIKE TO DO? I love my motorcycle and camping. I enjoy working on rigs, can't get enough.

FUTURE GOALS IN LIFE? To use everything I went to school for. Hopefully to get into street rods.

IF YOU COULD BE ANYTHING IN LIFE, WHAT JOB WOULD YOU HAVE?
Vehicle tester! Oh ya!
